Our Nicola Tesla 2.0 grow tech may take all plants and the planet to unprecedented highest yields and quality, affordably, naturally and faster like no other. See Ancient Grains Meet Space Age Science at GoldenOpportunitiesDevelopment.com's global restoration menu.

SpeedyVeg.com grows 4 pounds of cannabis flower where the norm is 1. SoilSecrets.com used by hemp growers in 4 states on 2,000 acres for 3 years has never exceeded the limits and took .003 carbon soil to 4.5 % U.S.D.A. verified. Hemp for carbon or any purpose is reinvented with our customized super science library. SeaAgri.com, plant and planet supplement, has all macro-micro-pico minerals and 50,000 microbials for all plants, animals and soils. Lab tested Dakine420.com averages 5-8% more THC.

Our drone partners in 13 states, survey and spray 5 acres an hour and 20-23 by mid Jan. to April. See Patrick Egan
